

Conceptual rendering of the proposed picnic pavilion at Freedom Park

Freedom Park Brick Campaign

Brick Order Form

Freedom Park Information

Freedom Park will enhance the quality of life in Southern Bradley County by bringing much needed park and recreation space to the area. The park will also provide unique ecological educational opportunities to the students in nearby Valley View Elementary School and to other visitors of the park through the proposed nature exploration area and play trail. The nature exploration area and play trail will offer educational opportunities and hands-on, interactive learning experiences through explanatory signage of native meadow plantings, flowering and fruiting plants as well as the pollinators these plants will attract. There will also be opportunities for fruit gathering within the nature exploration area. The nature exploration area is thus a key instrument in promoting environmental awareness to students and visitors.

The park will also include a picnic pavilion, restrooms, a playground, amphitheater-style seating for the existing ball field, and other activities to enhance community engagement. This park will offer an enriched outdoor experience for all ages to participate in a more active lifestyle, connect with the environment, and help make connections in the community. The park is to be located in the infield of the existing asphalt walking track that is directly adjacent to Valley View Elementary School. The address for the school is: 5607 Spring Place Rd SE, Cleveland, TN 37323.

Your Engraved Brick's Place in Freedom Park

By donating an engraved brick, your assistance with the construction of Freedom Park will have a lasting place within the park itself. Your engraved brick will be located either within seating areas that will be installed alongside the existing asphalt walking track or within other paved pathways throughout the park. Engraved bricks can be secured by filling out the information listed in this order form and by making a payment of \$150.00 or more.

The Brick Engraving Process

Your brick will be engraved using state of the art laser technology that ensures legibility for the lifetime of the brick. Please see the ordering information listed below.

Deadline for Ordering Engraved Bricks

Don't miss this opportunity to order as the number is limited and will be on a first come, first served basis. The deadline for ordering your brick(s) is August 12, 2019. Orders will continue to be received after this date for later installation.
